Company overview:

hSenid Software International Pvt. (Ltd.) is a software development company with offices in United States, Singapore, India and R&D centers in Sri Lanka & Malaysia. It was founded in 1997 with the aim of supplying high quality software products and services to its customer's world wide.

hSenid is an Application and Service provider for the Telecom, Financial and Enterprise markets. We specialize in Human Resource Applications and Mobile Applications for the Enterprise and Wireless markets. hSenid is also widely recognized for its reliable offshore/outsourcing capabilities.

With a staff of over 250 skilled engineers worldwide, hSenid offers the best solutions for your business. Our clients include Lucent Technologies, M1 (Singapore), Todo1 (Florida, USA), DST (Brunei), Tigo (Sri Lanka), Valista (Ireland), major Financial Institutions, Airlines, Telecoms, and Insurance Companies.

Vision:

"Make life easy" by using ICT.

Mission:

We strive to achieve our vision by being dynamic and benchmarking ourselves against the best in the world. Continuous improvement through creativity and innovation is a way of life at hSenid. Our approach is to nurture and guide our employees to embrace this culture and unleash their potential as we endeavor to be leaders in our field.

Mobile applications:

We specialize in dynamic wireless applications and backend integrations (middleware) for Telecommunication Companies and Enterprise markets. Its extensive range of wireless applications includes a Telco Suite, Messaging Suite and a Financial Suite. The technologies we use include J2ME, SMS, WAP, XHTML, MMS and PocketPC. All our products are compatible with the latest wireless technologies like GSM/GPRS, CDMA and Wi-Fi. <http://www.hsenidMobile.com>

HR applications:

We develop state of the art HRIS applications which caters to all HR and Payroll needs of any industry, be it medium or large scale organization. Our approach improves the efficiency of management by automating all processes, thus moving into a paperless environment. Our applications are developed on client-server, ASP architecture, which provides a customizable, flexible, and smooth functionality in any client preferred environment. http://www.hsenid.com/home_hbs.html

Offshore/Outsourcing:

Our team with their diversified domain expertise collectively has many years of experience in managing and delivering complex global outsourcing projects. We provide development centers with focused teams of professionals that would be involved from start of product conceptualization till end product delivery & customer support, which has made us a thought leader in outsourcing business.

Our domain expertise in Telco Grade and Mobile arenas and our in depth knowledge in mobile switching (IN systems, SMSC, MMSC, USSD, etc) has enabled us to provide total outsourcing services including product development life cycle services for both mid to large size product companies world wide.

Other services provided by hSenid include consulting, high availability and high performance system architecting and development, system integration/migration, support and meeting customer's outsourcing need for information technology professionals.
